Usable environments:

IDS Deco vinyl flooring is standardized for high-traffic residential and low-traffic office environments and can be used to cover the floor of different parts of the house such as bedrooms, kitchen, living room, and corridor.

It is recommended not to use PVC flooring in the bathroom.

Resistance to Impact and scratch

Due to IDS Deco PVC flooring compact core, it has good resistance to impact and pressure. Also, a layer of UV varnish is placed on the upper surface of the IDS Deco PVC flooring, which prevents it from being scratched.

Private label

You can order our products with white label or private label (with any information such as your brand name, address, phone number, etc.)

About our company

IDS Deco company is manufacturer of three products: vinyl flooring, PVC marble sheet and PVC wall covering. Also, by working with other manufacturers in Iran, it offers a large commodity group in the field of building materials for export to other countries.

Working with other Iranian manufacturers and also, several years of experience in supplying and producing products has led us to provide high quality services to customers around the world.
