Usable environments:

In residential environments: corridors, lobby, elevator filter, TV wall, space between cabinets, bathroom and toilet.

In commercial environments: halls and hotels, airports, subway stations, restaurants, supermarkets, hospitals, cafes, offices, etc.

Resistance to pressure, impact & scratch:

PVC Marble sheets produced from compressed PVC and an anti-scratch layer (UV varnish) is placed on their upper surface, which increases their resistance to impact, pressure and scratches.

Installation method:

PVC marble sheets can be installed by fine air nails and polyurethane glue on smooth surfaces such as plaster, tile, stone and MDF. To cut UV marble sheets, you can use a grinding machine or MDF cutting machines, and like MDF, they also have the ability to work at different angles.

Private label

You can order our products with white label or private label (with any information such as your brand name, address, phone number, etc.)

About our company

IDS Deco company is manufacturer of three products: vinyl flooring, PVC marble sheet and PVC wall covering. Also, by working with other manufacturers in Iran, it offers a large commodity group in the field of building materials for export to other countries.

Working with other Iranian manufacturers and also, several years of experience in supplying and producing products has led us to provide high quality services to customers around the world.
